87%

## EXPERIENCE

### Web Developer Intern

Brainworm Technologies Pvt.Ltdc

07/2022 - 09/2022

New Delhi, India

Asp.net core Developer

Tasks

- During my internship, I worked in their Asp.net core development department. I was actively involved in the tasks assigned to me and worked diligently.
- My responsibilities included developing a backend server for authentication and user role management.
- I also integrated Google and Facebook external login providers using the identity framework.
- Additionally, I created custom web pages using HTML, CSS, and Bootstrap.

### Subject Matter Expert

Chegg India

04/2022 - 09/2022

Achievements/Tasks

- As a freelancer, I worked as a Subject Matter Expert in Computer Science for the Chegg India Portal.
- My responsibilities included solving Programming Assignments based on C++, Java, Html, CSS, JavaScript, etc

## SKILLS

C#

C++

Java

MySQL

Asp.net Core

Entity Framework

Identity Framework

MVC

Ado.net

HTML

CSS

JavaScript

Bootstrap

SSMS

Visual Studio 2022

## PROJECTS

### WhatsApp Clone [🔗](#)

- I have used the SignalR framework along with ASP.NET Core 6.0 to create a real-time socket connection with clients. Here, one user can send messages, and these messages are sent to the back-end through a POST request.

### Expense Manager [🔗](#)

- A personal expense manager using ASP.NET Core 6.0 and Entity Framework (EF) core Code First approach. Your everyday expenses are tracked by this expense manager, who also offers comparative charts to display your expense summary.

### Portfolio [🔗](#)

- My personal Portfolio website on Asp.net core 6.0 using Ado.Net code first approach with a beautiful UI design created using multiple frontend tools

### Think It Fast [🔗](#)

- Think It Fast is an Asp.Net Core based real-time Quiz application. You can sign up as a student to take the MCQ test that your teacher has assigned you with the appropriate authentication and authorization.

## ACHIEVEMENTS

### Journey to Cloud: Envisioning Your Solution by IBM

Successfully completed all the learning activities included in this online learning experience related to the cloud computing domain.

### Hackerrank C++ Problem Solving [🔗](#)

4 Star on the C++ Badge

### Hackerrank Java (Basic) [🔗](#)

Cleared Java(Basic) Assessment Test

### Tech Student Community

Taken the responsibility of creating awareness on exponential 4.0 Tech Student Community in USICT.
